

# Plastic Tasting Cups

## Better Sample Cups for Your Business

Our range of sample cups are designed to showcase your product. They look appealingly full, but contain only 12ml, 24ml or 36ml of your precious stock. This little poem says it all:

**Don't let your bottom line down  
By offering large tastings all 'round.  
Use our small cups  
and fill 'em full up.  
A strategy cost wise and sound!**

### Features and Benefits:

- \* Special easy-to-drink design
  - \* Stable base
  - \* Stackable
  - \* Lightweight

**Our tasting cups are really quite nifty.  
They're attractive, practical and thrifty.  
So fill 'em right up  
To the top of the cup.**

**Save money, but don't look a cheapy.
